**REMARKS**

Applicants have amended independent claims 3, 27 and 43 to include the allowable subject matter claimed in dependent claims 5, 29 and 45 respectively. Clean copies of amended claims 3, 27 and 43 are presented in this amendment along with marked up copies indicating the insertions and deletions on the attached pages.

It is now believed that all pending claims, namely, claims 3-4, 6-7, 16, 18, 20-21, 25, 27-28, 30-31, 35-40, 43-44, 46-47 and 51-56 are in condition for allowance. In view of the above amendments and remarks, an early and favorable reconsideration is respectfully requested.

The Commissioner is authorized to charge any additional fees necessitated by this paper to our Deposit Account No. 13-4500, Order No. 1232-4253US2.

Respectfully submitted,

MORGAN & FINNEGAN, L.L.P.

**ATTACHMENT****In the Claims:**

Please amend claims 3, 27 and 43 as follows:

3. (Eight Times Amended) A monitoring terminal for monitoring an image picked up by a camera connected to a network, comprising:

obtaining device arranged to obtain information concerning parameters of the camera including unchanging parameters and parameters whose conditions are changed by user's operation in accordance with starting up said monitoring terminal and obtaining information concerning said parameters whose conditions are changed by user's operation except for said unchanging parameters of the initial parameters of said camera after the initial start up; and

display device arranged to display camera-status on the basis of the parameters of said camera which is obtained by the obtaining device, wherein said display device displays a pan angle by a direction of a camera symbol.

27. (Four Times Amended) A method for monitoring an image picked up by a camera connected to a network, comprising the steps of:

obtaining information concerning parameters of the camera including unchanging parameters and parameters whose conditions are changed by user's operation in accordance with starting up a monitoring terminal and obtaining information concerning said parameters whose conditions are changed by user's operation except for said unchanging parameters of the initial parameters of said camera after the initial startup; [and]

displaying on a screen, the camera-status on the basis of the parameters of said

camera which are obtained by the obtaining step; and

displaying a pan angle by a direction of a camera symbol.

43. (Four Times Amended) A computer readable medium of monitoring terminals for monitoring an image picked up by a camera having computer usable program said program comprising the steps of:

obtaining information concerning parameters of the camera including unchanging parameters and parameters whose conditions are changed by user's operation connected to a network in accordance with starting up said monitoring terminal and obtaining information concerning said parameters whose conditions are changed by user's operation except for said unchanging parameters of the initial parameters of the camera after the initial startup; [and]

displaying on a screen, the camera status on the basis of the parameters of said camera; and

displaying a pan angle by a direction of a camera symbol.
